Instructor Assisted Deployment (IAD/Static line)

You will be trained by a United States Parachute Association rated instructor who will teach you to make your first skydive, the safest way possible.

After your four to six hour course, you will be geared up in our top of the line, state of the art equipment, and then fly to an altitude of 4500 feet where you will make your first jump. As you leave the plane your instructor will deploy your parachute for you and you can enjoy a beautiful and peaceful parachute ride while an instructor on the ground talks you safely down.

The stipulations for making your first jump are as follows: all participants must complete all required waivers, be in good health, be at least 18 years of age, and not exceed 225 pounds.

The cost is \$175, which includes instruction and first jump. Classes are held on weekends. Reservations must be, made in advance.

Tandem

On a tandem jump, you exit from 11,000 feet, attached to the front of a certified Tandem Instructor. Free fall time is about 40 seconds, followed by an approximate five minute, absolutely peaceful parachute ride down.

This is an excellent opportunity for the person who wants to experience the full thrill of skydiving before entering our student training program. The jump can be recorded and put onto DVD. Digital pictures may also be taken, creating a lasting memory.

The stipulations for making your first jump are as follows: all participants must complete all required waivers, be in good health, be at least 18 years of age, and not exceed 225 pounds.

The cost is \$210 for the jump and \$90 for the video and pictures. Participants must call ahead to schedule their tandem jump.

We're only open on weekends,
so **CALL NOW!!!**

Accelerated Freefall (AFF)

AFF is an 7 Level freefall training program that takes you from ground school to solo freefall. It introduces you to the skills needed to safely do both solo and group skydiving. In only 7 jumps, you will learn about all skydiving equipment, freefall, parachute control, and landings.

Gear

Here at Mid-America Sport Parachute Club, we only use gear that meets the safety requirements of the Unites States Parachute Association. Skydiving is safer than it has ever been, and we here at MASPC are leading the way with only the best for our students!!!
